

## **Exceptional Homes Testimonial**

If you are looking for a builder with integrity, quality craftsmanship, and one who communicates, Exceptional Homes is the right choice. If you are looking to build a home in 90 days, get charged a premium for every change order, use "builder grade" materials, and/or work with people who do not have your best interests in mind, then this is not the builder for you.

We were referred to Exceptional Homes by friends who said, "this was one of the best experiences of their life". We can honestly tell you, we have never heard those words from anyone that has built a home. We have only heard the nightmare stories, the lawsuits, the lack of communication, the stress, and lack of flexibility. After walking through their home and noticing some of the fine details and pride taken in their work, my wife and I decided to go for it. We must say, Exceptional Homes exceeded our expectations and continue to deliver after taking occupancy 4 months ago.

It is hard to believe our experience started in a Carrabba's in Lancaster (which I still owe Mr. Gibson for:) on December 21<sup>st</sup>, and 8 months later we were signing the papers for the home we always dreamed of. We came in expecting a new home and came away with a home that exceeded expectations and a few new friends. The entire team takes their job personally, and in every phase of the build, make sure you are happy.

Looking back, this build was in fact one of the most enjoyable projects we have ever done together. We came in with a plan, and the Exceptional Homes team delivered. We are confident your experience will be the same and you will have a beautiful home for many years.

We cannot thank this team enough. From Jim and Dwayne, to Jason, Jamie, Cody, Shawn, Rich, Bill, Mike, Jason, Butch, Bubba, Bill, the drywallers, and all their support people, THANK YOU for making our dream a reality!

Sincerely,

George and Teri McClure

"The name says it all. Jim Gibson and Dwayne Deimler truly build "Exceptional" homes. We are blessed to have met and worked with both of them."
